FROM THE PRESIDENT'S PEN....

Worthy Brethren and Brethren,

We had a most successful Meeting on 24th. May, at which Worthy Brother Max Leibowitz gave us a most informative talk on the events which brought about the murder of his family in Lithuania during the Second World War – a history of which all of us are most familiar, having had Grandparents and or Parents that emigrated to South Africa from that benighted land.

Having recently had a hip replacement operation at Meir Hospital in Kfar Sava, I have been housebound for the past month. I am pleased to say that since a few days ago (26 / 06 / 2018), I've been able to walk around the house with a walking stick, instead of the "halichon" (walker), which has eased my situation somewhat.

It is amazing how, when one is in that hospital bed the first 4/5 days – how one's "world" shrinks to the 50cms. on both sides that you can reach and that that becomes your entire existence. It made me think of how one needs to give a thought to those poor individuals whose whole life is confined to that awful stricture.

I only have praise for the outstanding after care that I have received since then – when on my return home I was visited by a "roving" Doctor, who checked up on me - a male nurse that came to me on 3 occasions - a physiotherapist that came virtually every second day for 10 visits - phone calls from a volunteer organization for pensioners who have undergone operations, and on Thursday I'll be going for the first of my physiotherapy treatments at the Meir hospital . All of that marvelous care for absolutely no charge whatsoever ! I don't think that there are too many nations on earth that can claim to have such "First World" care gratis !

Fraternally,

Worthy Brother Micha'el S. Bloch.
President.
